

Lodz, 14 th of November 2008

REACH Declaration,

Dear Sirs,

We hereby declare, that concerning The European Regulation No 1907/2006 called "Reach Regulation", which applies for us duties described in article 7, we are obliged to register substances in articles from 1 June 2011, after that substances are announced in appendix XIV to that regulation.

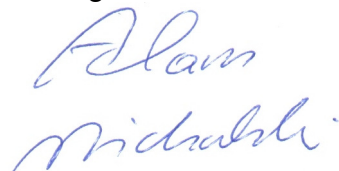

Taking into consideration fact, that we neither import outside EC nor produce substances or their preparation, we are not obliged to register now.

Following, already announced "candidate list", together with our supplier we have already started evaluation of the status, against The Reach Regulation of all articles in ERGOM catalogue.

At present, only articles that contain hazardous substances in attached list, may be considered by Reach Regulation.

In case of any additional questions and basing on our and our supplier knowledge, and duties coming from regulatory requirements mainly from article 33, we will inform You about changing status of our articles.

Best regards,

Adam Michalski
Quality Manger

Attachment:

1. List of products containing SVHC substances from "candidate list" above 1000 ppm

Appendix 1.

List of products containing SVHC substances from “candidate list” above 1000 ppm
(updated 05-04-2011)

no.	Product name	CAS No./ substance name/ EC no.	Content [ppm]	SVHC substance labeling	Intended release of hazardous substances from article	Reach Status
