

## Method of marking

### Markers, OZ type

Flexible PVC profile, overprinted or not, as a tape – 10 pcs., notched or in bulk.

**NOTE! A NOVELTY:** SZ type for operating at high temperatures.

**Wires:** 0,12÷185 mm<sup>2</sup> (1,1÷25 mm dia).

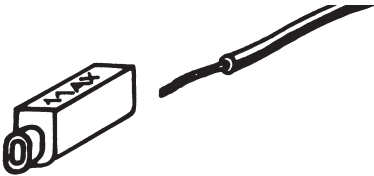

### Markers, type OS and OF

Plastic moulding without overprinting to be overwritten with a PC or PN pen.

**Colours:** white and phase colours.

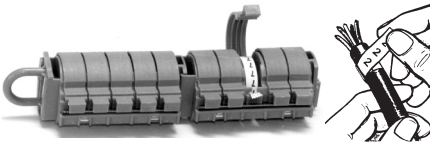

**Wires:** up to 4 mm<sup>2</sup>.

### Markers, OSR type

Overprinted rolls made of self-adhesive silicone paper placed in a plastic box.

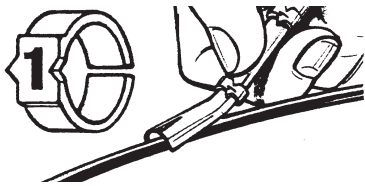

**Wires:** recommended up to 16 mm<sup>2</sup>, but more is possible.

### Markers, OPM type and others

Plastic mouldings, overprinted, placed on a base to facilitate mounting on the wires.

**Wires:** 0,75÷ 95 mm<sup>2</sup> (1÷19 mm dia).

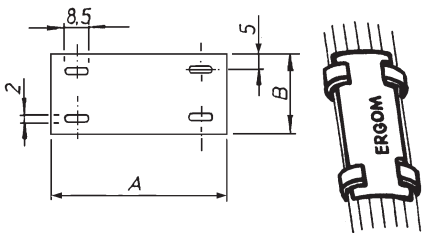

## Marking of cables and bundles

### Markers, OW and OWN type

Plates for writing on with the PC or PN pen or "hot-stamping", fixed to the cable or bundle by means of the TK cable tapes.

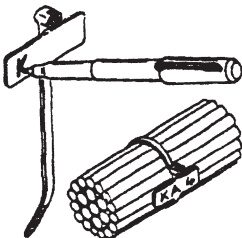

**Wires:** depending on the used TK tape up to 190 mm dia.

### Cable ties type TKTO, TKOT, TYTO, TYOT

Cable tape with a description plate for hand overwriting or "hot-stamping".

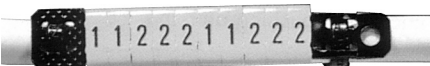

**Wires:** up to 50 mm dia.

### Markers, OV 6 type

Plastic moulding with stringed markers as needed, fixed to bundle by means of TK tape.

**Wires:** depending on the used the TK tape up to 190 mm dia.

## System of marking by means of professional printers

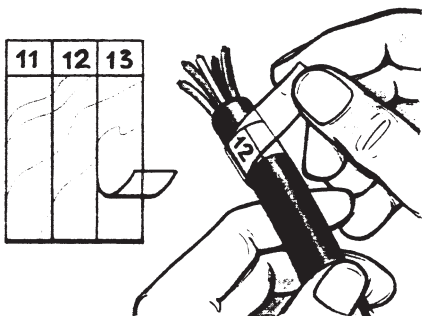

### Markers I.D.PRO Plus, DYMO 3500, DYMO 2000, ID PAL

Systems of markers printed on mobile printers and by means of computers, with a very wide application range.

**Wires:** 1,6÷50 mm dia.

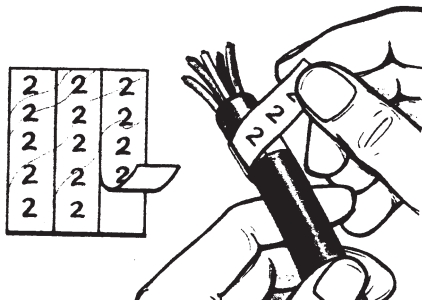

## Self-adhesive markers for wires and cables

### Markers, TS type

Tape of transparent, self-adhesive PVC foil with a white place designed for hand writing or by means of a laser printer.

**Wires:** 0,5÷240 mm<sup>2</sup> (2,5÷25 mm dia). on order we offer markers for cross section up to 1,000 mm<sup>2</sup>.

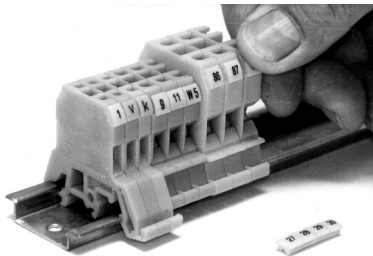

### Markers, ZS type

Tape of white, self-adhesive PVC foil, overprinted.

**Wires:** 0,01÷240 mm<sup>2</sup> (0,1÷30 mm dia).

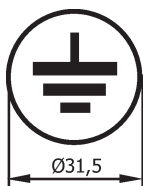

## Markers for terminal blocks, terminals, devices

### Markers, EZ 5, EZ 6 type

Flexible PVC profile, overprinted or blank, a notched tape – 10 pcs, or in bulk.

**Design:** For home-made or Weidmüller terminal blocks, etc.

### Markers, type ZS

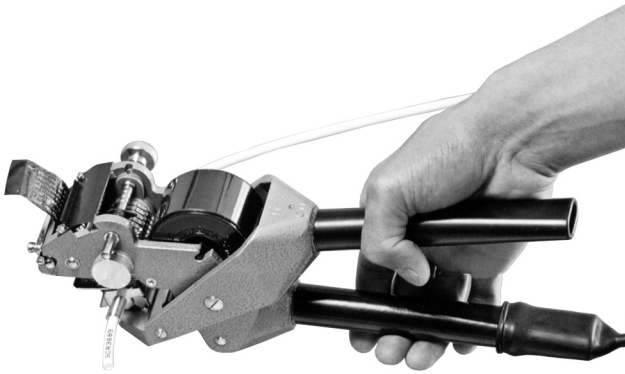

White or colour foil, overprinted, self-adhesive.

**Design:** For marking of terminals, phases, etc.

## Marking device, M-3N type

Equipment for thermal "hot-stamping" overprinting.

**Application:** For marking cables, wires, tubes etc.

## Industrial symbols

**Plates TZ..., ZOP, ZE, ZB**

Made of self-adhesive foil, plates of plastic or steel or fluorescent materials.

Name: Safety plates and signs, fire signs, evacuation signs, work safety signs.
