

FEATURES & BENEFITS

cleaning product, particularly for glass, etc.

LOGISTIC DATA

Type	L-15/200 ML
Index Ergom	E05CE-01010102001
Quantity in package [ml]	200

An effective detergent for the all structures and plastic housings of computers, printers, screens, plotters and photocopier drums and any other office machines. It is particularly suitable for cleaning glass, lenses and optical instruments. It can be used, with good results, for cleaning optical readers of CD drives, PC-boards, electromechanical tuners, delicate audio and VCR components, glass surfaces of photocopiers and scanners, as well as to degrease electric and electronic elements and eliminate flux residues from PC-boards. Eliminates electrostatic charges from audio and vide heads. Evaporates fully, without any traces left.

NOTE!

Do not use to clean live electrical components !
