

FEATURES & BENEFITS

- ☒ very good insulating properties
- ☒ prevents short circuits
- ☒ protects against unfavorable weather conditions, humidity and salt (in sea conditions)
- ☒ possibility of soldering through the varnish layer

LOGISTIC DATA

Type	V-66/200 ML
Index Ergom	E05CE-01010100901
Quantity in package [ml]	200

Fast-drying (15÷30 minutes) varnish, creating a bright, transparent, strong, non-cracking and non-peeling coating with high dielectric strength after drying. It adheres to and spreads over all surfaces. Can be soldered through. Main applications: coils, solenoids, transformers, electronic components, printed circuit boards.

MECHANICAL DATA

Operating temperature [°C]	-30 ÷ 130
----------------------------	-----------

ELECTRICAL DATA

Breakdown strength [kV/mm]	15
