

FEATURES & BENEFITS

practical product for removing paper labels

LOGISTIC DATA

Type	E-21/200 ML
Index Ergom	E05CE-01010101301
Quantity in package [ml]	200

An indispensable product that instantly removes any type of paper label from all surfaces, without damaging the surface. Deeply penetrates the paper through its pores and in about one minute neutralises the label adhesive. In the case of plastic labels, the product should be sprayed on from the edge until the label is completely removed. Although the product has been factory-tested, it is recommended to test its safety for the respective surface before use.
