

Flexible stainless steel conduit, WO...S type

FEATURES & BENEFITS

-  flexible stainless-steel conduits for cable and bundle protection
-  sufficient degree of protection (IP) for operation in dry rooms
-  high mechanical strength, resistance to difficult ambient conditions
-  wide range of sizes: inside diameters from 10 to 100 mm

Designed first of all for protection against mechanical damages. It protects wiring against short-time contact with hot water or steam piping, and even with open fire (but only against so-called "light touch"). It has high resistance to aggressive media occurring in industry. Used with MWD and MWD...S glands.

MECHANICAL DATA

Material	304 AISI steel
Halogen-free	yes
Operating temperature [°C]	-80 ÷ +500
Corrosion resistance	4 (high) EN61386-1
Compression strength	4 (1250 N)

CERTIFICATES & STANDARDS

IP degree of protection	IP40
Standards	EN 61386-1; EN 61386-23
