

## FEATURES & BENEFITS

separate crimping sockets for each cross-section

ratched mechanism ensures repeatability of terminal crimping results

## LOGISTIC DATA

|             |                   |
|-------------|-------------------|
| Type        | PK2,5/0,14-2,5    |
| Index Ergom | E06PZ-01080100101 |
| Weight [kg] | 0,35              |

## MECHANICAL DATA

|                |          |
|----------------|----------|
| Mechanism type | Standard |
| Length [mm]    | 190      |

## CRIMPING

| Socket code no. | Cable cross-section [mm <sup>2</sup> ] | Terminal group                 | Crimping shape |
|-----------------|--|--------------------------------|----------------|
| 1               | 0,14                                   |                                |                |
| 2               | 0,25                                   |                                |                |
| 3               | 0,5                                    |                                |                |
| 4               | 0,75                                   | H...ERHN,<br>HI...ERHL,<br>HIG | trapezoid      |
| 5               | 1                                      |                                |                |
| 6               | 1,5                                    |                                |                |
| 7               | 2,5                                    |                                |                |
